Security Metrics and Executive Reporting

Key Metrics:

- MTTD: Mean Time To Detect (goal: lower is better).

- MTTR: Mean Time To Respond.

- False Positive Rate: fraction of alerts not actionable.

- Dwell Time: time attacker remained before remediation.

Executive Reporting Template: One-page summary with top metrics, 1-2 incidents, action items, and recommended investments.

Sample dashboard items: current MTTD=2h, MTTR=4h, open critical incidents=1, false positive rate=12%.
